

Nyhavn table assembling instruction

Box 1 Content: **Box 2 Content:**

Tableplate
* Apron/support

2 × Legs
28 × Buttonhead M6 × 16
(For FJ5369 - only 22 × Buttonhead M6 × 16)
5 × Buttonhead M6 × 35
1 × Maintenance kit

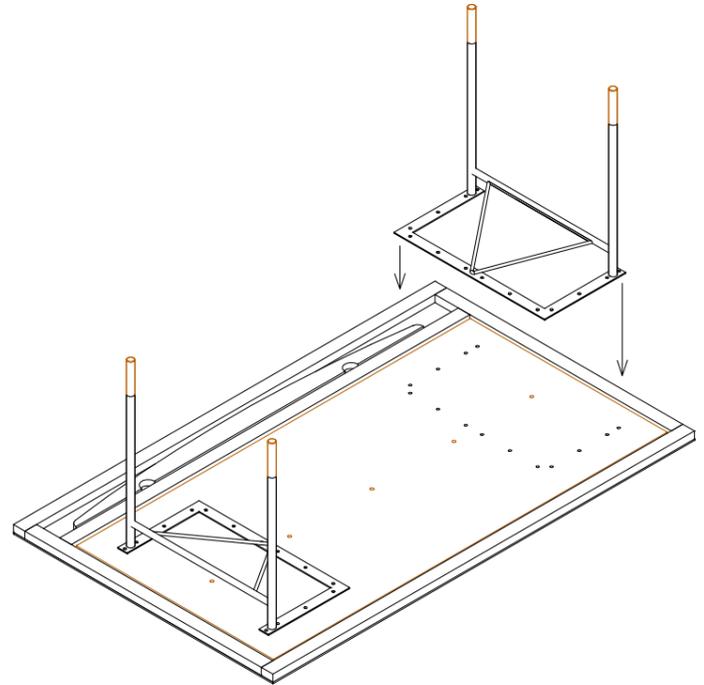

1.

Place the cardboard box on the floor with the delivery label facing the floor.

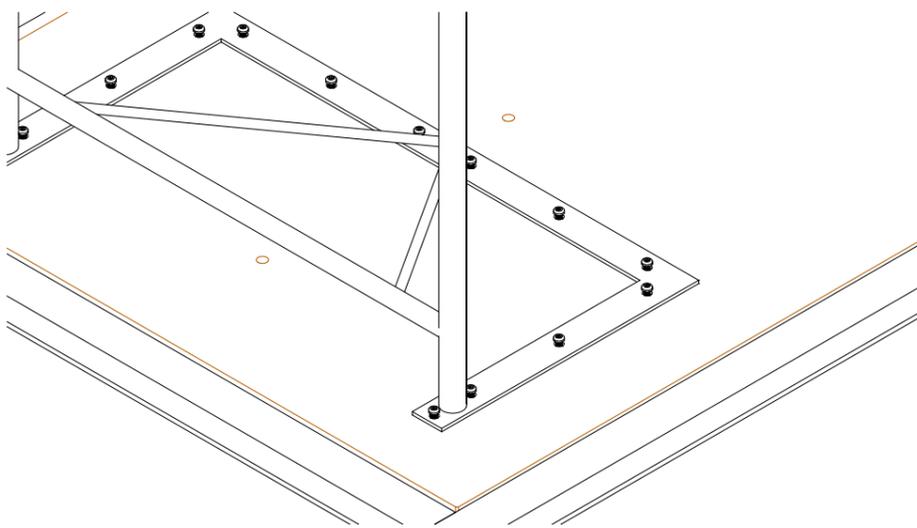

* Apron / support is not included with the FJ5369 (table length 136 cm)

2.

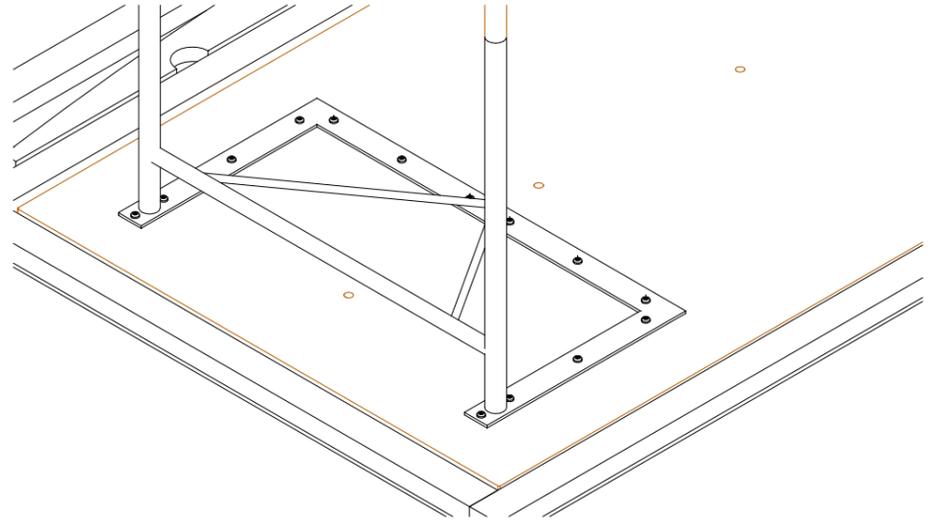

Open the cardboard box with the table plate by removing the top of the box.
Open the cardboard box with the legs and place these as shown in the drawing.

3.

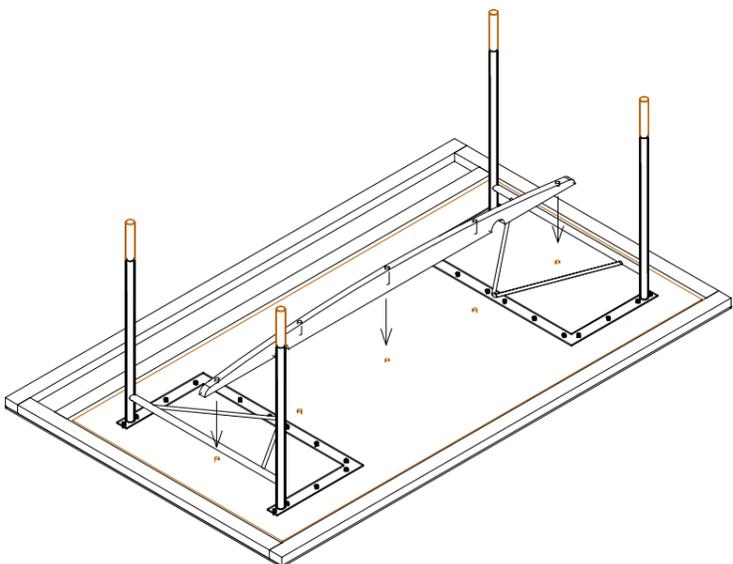

Place all assembling screws as shown in the drawing, but do not tighten the screws until all screws have loosely caught the thread in all screw holes.

4.

Hereafter you can tighten the screws one by one.

5.

At last take the apron/support*, which is in the carton with the table plate, and place it as shown in the drawing. Make sure that all 5 screws have loosely caught the thread before these can be tightened.

Now the table is completely assembled and you can lift it out of the carton box. We recommend two persons for handling the table. **DO NOT PLACE THE TABLE ON THE EDGES OF THE TABLE!**

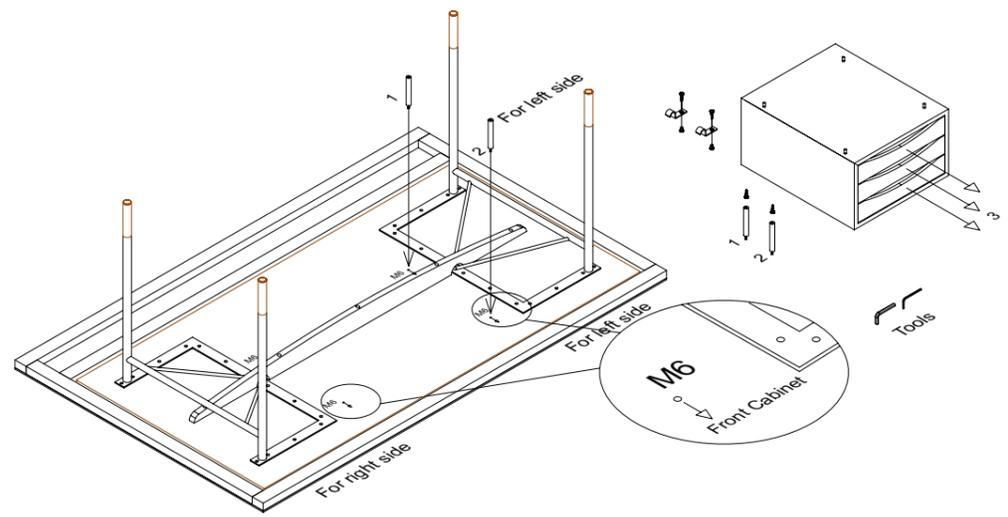

* Apron / support is not included with the FJ5369
